the Enquirer. Unfortunately, your comment on its comparability too true.

is are fakes based upon the solid. Chapman's conclusions are wrong. I have all these pictures and other work he did for me in mind. I understand because he must impose his preconceptions. Lee was in New Orleans at the time he says he saw him in Dallas. This is new or unpublished earlier.

This is more complicated, more sinister and presents considerable difficulty. Eventually see, he stole the documents from my COUP. I had loaned them to a friend who was doing some investigating for me and Skolnick came across them, pretending he'd try and carry my work forward. He has been merely adding the refuse of a mind sick with ego and eaten up with a desire for publicity and the most uninhibited imaginings, wishful and wishful, cooking up what has not a single one of the real law suit. He thrives on getting out of court, thus presenting his increasing followers, all persuaded that government is not as he says and not more than he.

Concern is that when, as it inevitably will be, this case is settled there will be national headlines proclaiming "Warren Report suppression", to the detriment of truth and the defamation of the nation. I have won the first one, but there has been not a word as to what is going to do it, so was the Washington Post syndicate. Because the victory proves Kleindienst a self-proclaimed liar, unscrupulous and twisted public official. Rather than face me in court, how much less newsworthy could this be? But let effluvia fly, and it gets an enormous play. The media has an unerring nose and plays it big to undermine what is solid and to discredit in the few of us doing any real work.

Final, as is the threat. He was, in Chicago alone, and had no alibi. It was also not Oswald's car. This is the real reason JFK was killed. Groth, my discovery not Skolnick's, as again you'll see if the book (limited, xerox edition now only), is connected with no one of the attempt believed imminent on JFK, which is hardly unusual.

You are getting the story of my current life.

Many thanks, best regards,
